I agree. No engagement outside the public process (unless it is appropriate/required to do another consultation with the Tribe - so added Kristi and Jeff for that question)...

Seems right to me we shouldn't engage in individual meetings during the comment period. Assume ORC would share that view?

Subject: Barnstable Commissioners Meeting on SSA draft Determination

Good Morning All
Hoping your week is going well

Sharing a note from Mark Forest (Barnstable). He is thankful to all for the draft SSA determination and asking if I could be involved in their next Barnstable Commissioner's Meeting. I previously expressed that this may be problematic during EPA public comment period; and he will be OK with that decision. Just checking in with you to see if different opinion on EPA participation in upcoming Barnstable Commissioners meeting.

Thanks and Take Care
Jane

Subject: EPA Review of Proposed Machine Gun Range on the Upper Cape Water Supply Reserve.

Jane -

Thank you for the update on the EPA's findings concerning the Machine Gun Range.
We appreciate all the time and effort that the EPA has applied to this very controversial project.

We are interested in learning more about the findings and have scheduled a meeting on Wednesday May 10 9am to discuss it.
We will be asking County staff to review the document and present an overview of the draft report.

We also want to extend an invitation to you to join our Commissioners meeting.
We recognize that the EPA staff may be unable to speak to this report during the public comment period, but we want to extend an invitation anyway.

Our meetings are conducted in a hybrid format using Microsoft Teams, so you could participate from your home or office, online.

Please let us know if you could join us.

Once again, thank you and everyone at EPA Region 1 who has worked on this.
We appreciate your interest in protecting our sole source aquifer.

Mark Forest, Chairman
Barnstable County Board of Commissioners mark.forest@capecod.gov
